Forecast for Friday 14 Jan 2022

Weather: Many ranges will be dry and mostly cloudy. There will be some patches of drizzle over hills near west coast. Some light rain possible over north Highlands in the morning. Some brighter interludes in afternoon.

Chance of cloud free mountain/hill tops above 800m: 20% improving 40% by afternoon.

Visibility: Patches of poor visibility in association with drizzle where clouds will be extensive down about 600 to 700m. Clouds may even be lower down the hills during morning over north Highlands. Otherwise good visibility with a few breaks in the cloud developing by afternoon.

Met Office Aberdeen Meteorologist's View
Note much lighter winds on the tops but still a cold feel with temperatures only a few degrees above freezing.

Forecast for Saturday 15 Jan 2022
Weather: A mostly cloudy start with still the odd patch of drizzle, otherwise mostly dry during the day. It will become brighter too with some sunshine in the afternoon, best towards Ben Hope and Ben Wyvis.

Maximum wind: South or southwest winds strengthening during the day. Average speeds 15 to 20mph in the morning increasing 30mph gusts 45mph by dusk.

Chance of cloud free mountain/hill tops above 800m: 20% improving 50%, best in north and east of area.

Visibility: Patches of poor visibility in drizzle, mostly over Skye and Knoydart with extensive clouds about 700m. Mostly good visibility during the day with clouds lifting and breaking a little.

Temperature: **Glens:** 4 Celsius rising to 8 Celsius.
At 800m: Plus 3 Celsius.
Freezing level: 1000m.
